ABOUT ALL WEBBED LABS

WHO WE ARE

All Webbed Labs is Australia's premier enterprise software development partner. We build the software that runs your business, including AI tools and enterprise platforms, mobile apps, Web3 solutions, startup MVPs and full digital transformation. Whether you are a large corporation modernising a legacy system or a founder racing to launch an MVP, we deliver to enterprise standards every time.

Every engagement is led by senior engineers only. No juniors touch your codebase. Full IP ownership transfers to you on completion. We operate to enterprise security standards, offer fixed-price engagements where applicable, and back every project with a dedicated account team and SLA-covered post-launch support.

- ✓ An Australian Registered Entity
- ✓ Senior Engineers Only, No Juniors
- ✓ Enterprise Security Standards (OWASP)
- ✓ Full IP Ownership Transferred on Completion
- ✓ Fixed-Price Engagements Available
- ✓ Free 30-Minute Strategy Call
- ✓ NDA Available on Request

IMPORTANT INFORMATION

Disclaimer: Project Involvement

The projects listed in this document represent a portfolio of work in which All Webbed Labs has been involved in varying capacities. Our involvement may include, but is not limited to: full or partial development, technical architecture, code contributions, UI and UX design, project editing or review, strategic consultation, informal advisory, or any combination thereof. The nature and extent of involvement varies from project to project. Inclusion does not imply sole ownership, exclusive development, or a formal contractual engagement in every instance. Some projects may reflect advisory or consultative contributions only. All project descriptions are based on publicly available information at the time of publication. We make no representations on behalf of third-party project owners.

Confidentiality Notice

This document is intended solely for the use of the individual or entity to whom it is addressed. The contents of this document, including all project descriptions, company information, service details, and any other material contained herein, are confidential and proprietary to All Webbed Labs, a division of All Webbed Up Pty Ltd. By receiving this document you agree not to reproduce, distribute, disclose, or use any of its contents for any purpose other than evaluating a potential engagement with All Webbed Labs, without prior written consent. If you have received this document in error, please notify us immediately at admin@awlabs.com.au and destroy all copies. Unauthorised use, disclosure, or reproduction of this document or its contents may expose you to legal liability. A formal Non-Disclosure Agreement is available on request prior to any detailed engagement discussions.

**This selection spans diverse industries, platforms
and technology stacks,
reflecting our capacity to deliver enterprise-grade
software across any sector or use case.**

OUR DELIVERED PROJECTS

ABOUT THIS SHOWCASE

The projects below are a hand-picked cross-section of work, randomly selected to demonstrate the breadth of capability across different industries, platforms and technology stacks. They span Web3 and blockchain, mobile and consumer apps, enterprise and business platforms, healthtech, govtech, developer tools, sports, wellness, and more. This is not an exhaustive list. With 30+ projects delivered, this document is intended to show range rather than volume.

BLOCKCHAIN / DEFI

AssetX

A decentralised exchange (DEX) built on the Polkadot blockchain. Users connect a crypto wallet to swap tokens such as ASX and DOT, provide liquidity to pools, and participate in yield farming. Includes live price tracking, wallet integration, and a clean dashboard for managing on-chain digital assets in real time.

[!\[\]\(ec9132f1d27c8919987d92907322654d_img.jpg\) View Project](#)

LEGAL TECH

LegalSign

An Australian electronic signature and document workflow platform enabling businesses to prepare, send, and legally execute agreements online. Compliant with the Electronic Transactions Act, it supports full audit trails, identity verification, custom templates, and automated document distribution for legal and commercial workflows.

[!\[\]\(758ebdf4629c903da74c2e079717ae32_img.jpg\) View Project](#)

ACCESSIBILITY / TRANSPORT

Hailo

A Queensland-based public transport accessibility platform co-founded by a blind engineer. Integrates with telematics systems on buses and trains to enable passengers with disabilities to signal their stop and communicate with drivers in real time. Built on React Native and AWS with no infrastructure overhaul required from operators.

[!\[\]\(248b91fcdac4810ffd15cf33fb6aec6f_img.jpg\) View Project](#)

EVENTS / MARKETPLACE

Event Hero

An Australian event supplier marketplace connecting event planners with verified local vendors for weddings, corporate events, parties, and other occasions. Simplifies the discovery and booking of event services by bringing trusted suppliers into a single platform.

[!\[\]\(d3e32d099174a7c248ec1f564ee4f69c_img.jpg\) View Project](#)

SPORTS MANAGEMENT

Club Team Manager

A complete team and club management web application for sports organisations. Covers player and squad management, scheduling, roster coordination, and team communications. Built as a mobile-responsive progressive web app supporting coaches and club administrators managing multiple teams across a full season.

[!\[\]\(1f99bf65f43889da445ecc1fe8d9504f_img.jpg\) View Project](#)

CAREER / WORKFORCE

JobKeeper

A job application tracking system helping candidates organise their entire job search in one place. Users log applications, track interview stages, record outcomes, and monitor progress across multiple roles. Includes a freelance marketplace component with AI-powered matching.

[View Project](#)

AI / RECRUITMENT

NXT Pro Tech

An AI-powered job matching and career acceleration platform targeting professionals across the UAE and broader international markets. Uses intelligent algorithms to surface relevant opportunities based on skills and experience, alongside career guidance tools and employer-facing talent discovery features.

[View Project](#)

DEVELOPER TOOLS

Animated Form Generator

A free browser-based tool allowing developers to generate production-ready animated login form code in three steps: choose a template, configure colours and branding, then copy the output directly into their project. Freely available to the developer community.

[View Project](#)

SOCIAL / PRIVACY TECH

Close.

A private social networking platform built around radical privacy for trusted inner circles. Restricts sharing exclusively to family, close friends, and verified connections chosen by the user. Built with a strong focus on data security for genuine personal connection away from public social media.

[View Project](#)

SPORTS TECH

ScoreHub

A football predictions and live scores platform where fans engage competitively by submitting match predictions before kickoff, earning points for correct outcomes, and climbing global leaderboards. Features a live score feed, community prediction sharing, and a social feed connecting football fans worldwide.

[View Project](#)

HEALTHTECH

NurseGrid

A nurse scheduling platform in the US with over 650,000 active users. Covers shift management, schedule sharing, swap requests, and career development tools tailored specifically for healthcare workers managing complex rotating rosters.

[View Project](#)

CREATOR ECONOMY

AloPortal

A creator monetisation platform letting content creators sell memberships, run paid communities, and distribute digital products from a single branded portal. Positioned as an alternative to Patreon and Linktree, enabling direct monetisation of Discord, Telegram, and other community channels without platform commission fees.

[View Project](#)

GOVTECH / PROCUREMENT

Open Procurement

An open source procurement toolkit for public authorities and private entities. Brings transparency and standardisation to the tendering and procurement of goods and services at scale, with deployments across multiple countries supporting thousands of tenders annually.

 [View Project](#)

WELLNESS / MENTAL HEALTH

In2Bliss

An all-in-one wellness mobile app providing guided affirmations, meditations, and sleep support tools. Designed to help users reduce stress, build confidence, and develop daily mindfulness habits. Features morning affirmation routines, guided sleep meditations, and calm-focused breathing exercises.
